

Spring Valley Men's Golf League

1. The maximum handicap for any player is (20). Handicap will be based on 90% of strokes over par and will be a running total for 5 weeks played. To start the season, you're last score posted and handicap from last year will begin your new season. Those that don't have a handicap from last year will establish one on their first night of play.
2. If a player is 70 years of age or has a handicap of 17-20, the player has the choice to move up to the forward tees if they want.
3. There are NO gimmie putts. Putt every putt unless your opponent concedes the putt.
4. Someone from each team will verify and sign scorecard before turning it in after the match. Make sure this happens so there are no problems. Clear and legible numbers on score cards please. Any disputes on scores should be solved before turning in cards. If need be, call or text Matthew.
5. In case of bad weather it will be up to the golf course if we play. If they let us out to play, we play. If they don't let us out, it will be a rain out. Rain out will take out position nights on the schedule. If we are on the course and every match has completed 5 holes, it is considered a week played.
6. If anyone does not have an opponent to play against, they will win their points but their handicap will not change for the following week.
7. In case of an odd team league, the bye team will receive 2 points per player and 10 points total if all 4 team members show up on their bye week.
8. Sub players will take the place of the regular player no matter what the handicap is.
9. Scoring will be both stroke and match play against opponents.
A vs. Y stroke play 1 point B vs. Z stroke play 1 point
A vs. Y match play 1 point B vs. Z match play 1 point
A & B vs. Y & Z Stroke play 1 points
